Skills

- **Languages**: C++, C, Java, Python, JavaScript
- **Frameworks**: HTML and CSS
- **Tools/Platforms**: MS Excel, Unreal Engine
- **Soft Skills**: Active listening, Adaptability, Self-discipline and Critical Thinking

Projects

Real-Time Memory Allocation Tracker | GitHub | June 2025 – July 2025

- Built an interactive web app to visualize memory allocation.
- Designed dynamic UI to simulate real-time memory behavior for better understanding of OS concepts.
- Strengthened knowledge in system design and improved ability to explain complex technical concepts visually.
- **Tech Used**: TypeScript, Node.js, REST API

E-Commerce Website | GitHub | April 2025 – May 2025

- Developed a responsive e-commerce platform with modern UI design.
- Implemented smooth navigation, product display sections, and optimized performance using React and Tailwind CSS.
- Improved user engagement through clean layout, fast loading, and mobile-friendly experience.
- **Tech Used**: React, Tailwind CSS, Vite

Earth Harmony – Crop Advisory System | GitHub | Oct 2024 – Dec 2024

- Built an AI-based crop advisory platform using soil, climate, and market data.
- Implemented multi-stage analysis integrating static inputs and real-time data for accurate predictions.
- Enhanced decision-making for farmers through a clean UI, and personalized recommendations.
- **Tech Used**: Machine Learning, React, Vite

Training

AI & Machine Learning for Real-World Problem-Solving June 2025 – July 2025

- Completed a skill-development program focused on applying artificial intelligence and machine learning techniques to solve real-world challenges. Gained hands-on experience with supervised and unsupervised learning, model evaluation, and implementation strategies. Earned an A grade based on performance
- **Tech Used**: Machine Learning Concepts, Python, Model Evaluation, HTML and CSS

Certificates

- Fundamental of Data Structure using C++ — July 2025
- The Complete C Course — Mar 2024
- The Complete Python Course — Feb 2024
- Code -A-Hunt hackathon organized by Coding Blocks — Feb 2024

Achievements

- Built multiple real-world projects including e-commerce.
- Built an AI-powered crop advisory system for smart farming decisions.

Education

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 5.74*** — Aug 2023 - Present
- **Sri Chaitanya Junior college** — Vijayawada, Andhra Pradesh
  Intermediate; ***Percentage: 65%*** — July 2021 – Mar 2023
- **Viswabharati High School** — Gudivada, Andhra Pradesh
  Matriculation; ***Percentage: 90%*** — July 2020 - Apr 2021
